Medieval Astrology Profile for Charles Starkweather

History: Initial 18-Jul-2016

Introduction to delineation of appearance and character in natal astrology. The following document is a hand-written analysis of **Charles Starkweather**, using the principles of medieval predictive astrology. The discipline of natal astrology focuses on the fate of an individual based on a horoscope cast for the moment of birth. Within natal astrology, the 1st house occupying the eastern horizon at birth describes the native: physical vitality, appearance, and character. Between the Hellenistic and Medieval eras several specialized models were developed to assess these characteristics. They include **longevity** (vitality and length of life), **physiognomy** (form and shape of the face and body), **victor of the chart** (overall life purpose), **manners** (social conduct including ethical behavior), and **temperament** (elemental mix of fire, earth, air, and water with applications in medical astrology). Prior research has presented models and results for longevity (*A Rectification Manual: The American Presidency*, Chapter 4) and physiognomy (*Astrological Physiognomy: History and Sources* & *Astrological Physiognomy: Empirical Tests of the Leo Rising Decan*).

Victor of the Chart. Included are two competing models for computing the victor of the chart said to be the single most powerful planet in the horoscope. According to Plato's follower Porphyry, by configuration in the natal horoscope the planet signifying the victor of the chart shows the life choice made by the soul prior to incarnation. Plato explains the details of his soul model in *The Myth of Er* found in the closing pages of his work *The Republic*. Porphyry and his peer Antiochus offer specific rules for determining the victor of the chart. The method of Antiochus/Porphyry is compared to a later method for determining the victor suggested by the Jewish Rabbi Abraham ben Meir ibn Ezra, a philosopher and astrologer active in the 12th century. For a discussion of these two models, see the companion paper *Victor of the Chart: Testing Methods of Antiochus/Porphyry and Ibn Ezra*, which serves as a key to what is presented here.

Manners. Plato was not alone among Greek philosophers in conceiving models for the soul. Aristotle's model of vegetative, sensitive, and intellective soul levels (assigned respectively to the plant, animal, and human kingdoms) was taken up by Ptolemy, who found a correspondence between the sensitive and intellective soul and Moon and Mercury in the natal horoscope. Configuration of the Moon and Mercury, with special emphasis given to their rulers, is a second method for analyzing the soul. Ptolemy introduces this model in *Tetrabiblos III.13* "Of the Quality of the Soul.*"* Subsequent authors refer to this model as "Significators of the Soul" or "Manners." A summary template for the Moon and Mercury is presented in the paper and will be further developed in future versions.

Rectification

Available Birth Data

Astrodatabank reports an AA-rated birthtime of 8:10 PM with an Ascendant of 18CA18. The proposed rectification is slightly later.

Proposed Rectification

Charles Starkweather
24-Nov-1938
8:39:31 PM
CST +6
Lincoln, NE
96w40
40n48
ASC 24CA19'02"

Note: Other than the murders, trial, and prosecution, my current timeline is limited by the lack of dates for Starkweather's head injury in 1956, his car wreck in 1957, and the particulars of the early days of his relationship with Caril Ann Fugate. Until those dates are uncovered, this is a speculative rectification.

<u>Stage I. Determine the Ascendant sign</u>

Configuration of the Chart

Two life affairs are consistent with the position of Sun and Mercury in the 6th.

1. Sun in 6th indicates servitude of the father and a low social class. His family was considered working class but his father, a carpenter by trade, was often unemployed because rheumatoid arthritis impaired the use of his hands.

2. Mercury/Sagittarius in the 6th of illness is consistent with a speech impediment (Mercury) as well as a birth defect named genu varum which caused Starkweather's legs to be misshapen (Sagittarius is assigned to the thighs).

Mars/Libra opposed Saturn/Aries-rx occupying the 4th-10th axis is consistent with career problems to say the least. While other configurations are capable of causing career difficulties, together with the two observations on the Sun and Mercury, there is no reason to doubt a Cancer Ascendant in a first reading of this horoscope.

Stage II. Determine the Ascendant's range within 1-4 degrees

Physiognomy

I first worked on this horoscope in 2009 but by 2010 had refined by approach by incorporating physiognomy to a greater extent. Using Willner's sign-based facial shape model, Starkweather's rectangular-shaped forehead, an Aquarian trait, means Jupiter/Aquarius is the physiognomy significator for Starkweather's face. While Jupiter is the exalted ruler of the entire sign of Cancer; for the rising decan model, Jupiter ruling the third decan of Cancer – Pisces – is a better match to Jupiter/Aquarius as the physiognomy significator for the shape of Starkweather's face. I do note that in the rising decan model that the sign of Cancer gives results which are not very reliable, so I may be pushing too far here; but for general delineation purposes the slight difference in Ascendant degree should not make a material difference in results.

Sensitive Degrees

29-Aug-1972. *tr. North Node 23CP48 conj DSC* within one degree

This transit times the posthumous appearance of Caril Ann Fugate's on the NBC special *Growing Up in Prison*. The DSC is the 7th of spouse; the North Node makes it public. Here I am loosely delineating Starkweather's girlfriend Caril Ann Fugate as his 7th house spouse even though they were never married.

Lots

12th House Lot of Exile, Accusation, and Imprisonment. 2AQ09/27SC51
29-Jan-1958. *c. tr. North Node 27SC50 conj antisica of lot* for arrest.

Stage III. Determine the exact Degree and Minute of the Ascendant

Primary Directions

REG	D	Venus/Taurus	P	dex square Lot Exile, Accusation, Imprisonment => Saturn (SA)	3-Jun-1956
PT	D	Venus/Taurus	P	dex square Lot Exile, Accusation, Imprisonment => Saturn (SA)	8-Sep-1956
REG	D	Venus/Taurus	P	dex square Lot Exile, Accusation, Imprisonment => Saturn	10-Oct-1957
PT	D	Venus/Taurus	P	dex square Lot Exile, Accusation, Imprisonment => Saturn	5-Dec-1957

Head injury from a bailing machine near the time started dating Fugate, 1956 (no date given).
Wrecked father's car who made Starkweather move out of house, Fall 1957.
Robert Colvert murdered, 1-Dec-1957.

Note: The times that criminals commit their crimes and times when criminals are caught are often captured by dynamic activity to the 12th house Lot of Exile, Accusation, and Imprisonment. This sequence also connects Starkweather's head injury (delineation match to Saturn/Aries) in 1956 to the start of the murder spree. Obtaining exact dates for his head injury in 1956 and the date his father threw him out of the house in 1957 would be helpful in confirming these measurements.

REG	D	Jupiter/Sagittarius	P	Sun c. => Mercury (ME)	1-Jun-1957
REG	D	Jupiter/Sagittarius	P	Sun c. => Mercury	28-Sep-1959

Presented are the two of eight possible permutations of Sun-Mercury primary directions between 1957 and 1960. The sequence is in force during the killing spree, arrest, trial, and execution. Mercury/Sagittarius is the happy-go-lucky nature of the killing spree influenced strongly by Mercury's conjunction to the fixed star Lesath which is the stinger in the tail of the Scorpion. That the spree killings would lead to Starkweather's death (not a surprising conclusion) can be shown by Mercury applying to the sextile of Jupiter in the 8th of death ruling the 9th of the law.

REG	D	Mercury/Sagittarius	P	opposition LOF d. => Moon	13-Oct-1957

Opened joint savings account with Caril Ann Fugate, 14-Oct-1957
Note: Other permutations of this direction yield dates through 9-Nov-1957.

PT	D	Mercury/Aquarius	P	dex. sextile MC d. => Jupiter (JU)	14-Aug-1958
PT	D	Mercury/Aquarius	P	dex. sextile MC d. => Jupiter	22-Sep-1958
REG	D	Mercury/Aquarius	P	dex. sextile MC d. => Jupiter (JU)	22-Jul-1959
REG	D	Mercury/Aquarius	P	dex. sextile MC d. => Jupiter	15-Nov-1959

With the MC assigned to the King (government), the position of the dexter sextile of the MC in the 8th of death, and the distributor's bound placement in Mercury/Aquarius (significator of electricity), this is the most logical primary direction sequence to time Starkweather's death by execution at the hands of the government. The duration of the sequence contains the four postponed execution dates and the final execution.

17-Dec-1958	Execution date #1.
27-Mar-1959	Execution date #2.
22-May-1959	Execution date #3 set for 6:00 am. Stay granted at 4:30 AM.
12-Jun-1959	Execution date #4.
25-Jun-1959	**Executed by electric chair at 12:01 am. Pronounced dead at 12:04 AM.**

REG	D	Saturn/Capricorn	P	DSC d. => Moon (MO)	20-Sep-1955
PT	D	Saturn/Capricorn	P	DSC d. => Moon (MO)	13-Dec-1955
REG	D	Saturn/Capricorn	P	DSC d. => Moon	21-Mar-1959
PT	D	Saturn/Capricorn	P	DSC d. => Moon	25-Jun-1959

****LOCK**** Death of James Dean, 30-Sep-1955.
Film Debut, *Rebel Without a Cause* starring James Dean, 27-Oct-1955.
Second execution date (stayed), 27-Mar-1959.
****LOCK**** Executed by electric chair, 25-Jun-1959.

This set of directions links Starkweather's notoriety and death to the same notoriety of James Dean who was Starkweather's role model.

As a match to the Distributor, consider the AA-rated birth data for James Death places Saturn/Capricorn at 18CP09 in the 10th house and the highest elevated planet for Dean's horoscope. Dean's Ascendant degree of 12AR13 is conjunct Starkweather's Saturn at 11AR34.

REG	D	Mars/Taurus	P	opposition Prenatal Syzygy c. => Lot of Fortune	7-Jan-1958
PT	D	Mars/Taurus	P	opposition Prenatal Syzygy c. => Lot of Fortune	8-Jul-1958

Starkweather's prenatal syzygy was a solar eclipse. An unexpected finding while working on this project has been the ability of the syzygy to trump all other candidates for the releaser when the syzygy was an eclipse. In addition to the above DSC-Moon directions which accurately time Starkweather's death, consider the two above directions which ultimately time his actions which directly lead to his death sentence:

First murder of service station Robert Colvert, 1-Dec-1957.
Suspected involvement in death of Jimmy Law, 4-Jan-1958.
Murder spree, 21-Jan-1958 to 29-Jan-1958.
Sentenced to death for one of eleven murders, 24-May-1958.
Sentenced to death for additional murders, 8-Jun-1958.

The full set of permutations of primary directions for the opposition of the prenatal syzygy and the Lot of Fortune range between 17-Dec-1956 to 6-Jun-1959 with most from 7-Jan-1958 onwards. As guidelines for using the prenatal syzygy in an arcus vitae computation are slim to none, the only thing I see as relevant is the involvement of the Lot of Fortune, closely conjunct the 12th house of Evil Spirit, is involved in these directions. Accordingly this direction may be interpreted to mean: "Fortune goes to Starkweather's evil spirit, making his evil spirit more powerful, and obstructs the basis of his life." The nature of the opposition aspect is *obstruction*; the prenatal syzygy as releaser is the *basis of his life*.

Releaser and kadukhudhāh. Figure is nocturnal and Moon is preferred. The Moon is allowable in the 7th house by whole sign houses but fails by quadrant houses as it is more than 5 degrees below the 7th cusp. If not the Moon, then Sun in the 5th is allowable as releaser by quadrant signs, but not by whole signs. So the choice of house system has a bearing on which releaser is the starting point in this case.

Suppose we choose the Moon. Sign lord Saturn, exalted lord Mars, diurnal triplicity and decan lord Venus are all in signs of detriment or fall and cannot function as the kadukhudhah. Jupiter has dignity as participating triplicity ruler of air but is in aversion to the Moon.

This leaves the Sun which for similar reasons leaves Jupiter as the only possible kadukhudhah, this time with a wide sextile aspect to the Sun as the trial releaser.

If the kadukhudhah is Jupiter, then Jupiter grants 79 years, Saturn by sextile with reception (sign) deducts 30 minor years, Mars by trine with reception (bound only) deducts 15 minor years leaving a net projection of 34 years. Conceivably, Mercury as a functional malefic (detriment and 12th house lord) pushes its disposition to Jupiter deducting another 20 years for a net projection of 14 years or 1953. In 1954, Starkweather quit school and started unloading/loading trucks at a local warehouse. This was the first of many jobs he could not keep which started his slide into failure.

Interest to see the arcus vitae directs the DSC to the Moon despite all this analysis. Whatever the case, the fact that so many planets are in signs of detriment/fall and the luminaries are weakly placed near the 6th cusp indicates a shorter than average life span no matter how the projections are made.

Victor of the Chart: Jupiter/Aquarius

Ibn Ezra's method favors Mars with Jupiter a close second. Porphyry's Stage I expanded criteria favors Jupiter with Mars and Saturn only one point less. Note that Jupiter is the bound lord of both luminaries which according to Valens is a very strong indicator for the victor.

Certainly Jupiter is the most highly dignified planet in the horoscope, which doesn't say much as Jupiter has only one minor dignity – participating triplicity ruler of air. Jupiter also occupies the 8th house and is within a few degrees of the 8th cusp which signifies the gates of hell. One should not be surprised to learn that Starkweather's mantra was "dead people are all on the same level" as he came to see any individual who was better than himself as an enemy. Jupiter's placement in the sign of Aquarius – a humanitarian sign which seeks equality among all people – is a delineation match to "the same level" in Starkweather's mantra. Jupiter's sign and bound rulers, Saturn/Aries-rx opposed Mars/Libra, are highly afflicted and twists Jupiter's normal humanitarian character.
