Medieval Astrology Profile for Martin Bormann

Initial: 24-Nov-2014; Tables Revised 22-Jun-2016

Introduction to delineation of appearance and character in natal astrology. The following document is a hand-written analysis of **Martin Bormann**, using the principles of medieval predictive astrology. The discipline of natal astrology focuses on the fate of an individual based on a horoscope cast for the moment of birth. Within natal astrology, the 1st house occupying the eastern horizon at birth describes the native: physical vitality, appearance, and character. Between the Hellenistic and Medieval eras several specialized models were developed to assess these characteristics. They include **longevity** (vitality and length of life), **physiognomy** (form and shape of the face and body), **victor of the chart** (overall life purpose), **manners** (social conduct including ethical behavior), and **temperament** (elemental mix of fire, earth, air, and water with applications in medical astrology). Prior research has presented models and results for longevity (*A Rectification Manual: The American Presidency*, Chapter 4) and physiognomy (*Astrological Physiognomy: History and Sources* & *Astrological Physiognomy: Empirical Tests of the Leo Rising Decan*).

Victor of the Chart. Included are two competing models for computing the victor of the chart said to be the single most powerful planet in the horoscope. According to Plato's follower Porphyry, the planet signifying the victor of the chart by configuration in the natal horoscope shows the life choice made by the soul prior to incarnation. Plato explains the details of his soul model in *The Myth of Er* found in the closing pages of *The Republic*. Porphyry and his peer Antiochus offer specific rules for determining the victor of the chart. The method of Antiochus/Porphyry is compared to a later method for determining the victor suggested by the Jewish Rabbi Abraham ben Meir ibn Ezra, a philosopher and astrologer active in the 12th century. For a discussion of these two models, see the companion paper *Victor of the Chart: Testing Methods of Antiochus/Porphyry and Ibn Ezra*, which serves as a key to what is presented here.

Manners. Plato was not alone among Greek philosophers in conceiving models for the soul. Aristotle's model of vegetative, sensitive, and intellective soul levels (assigned respectively to the plant, animal, and human kingdoms) was taken up by Ptolemy, who found a correspondence between the sensitive and intellective soul and Moon and Mercury in the natal horoscope. The configuration of the Moon and Mercury, with special emphasis given to their rulers, is a second method for analyzing the soul. Ptolemy introduces this model in *Tetrabiblos III.13* "Of the Quality of the Soul.*"* Subsequent authors refer to this model as the "Significators of the Soul" or "Manners." A summary template for the Moon and Mercury is presented in the paper and will be developed further in future versions.

Martin Bormann (June 17, 1900 to May 2, 1945)

The most unknown but one of the most powerful of Nazi leaders, Martin Bormann rose from the position of regional administer in 1926 to Adolf Hitler's private secretary by 1943. In this position, Bormann controlled access to Hitler who became increasingly isolated from other Nazi leadership in the final years of the Third Reich. During his rise, Bormann made himself indispensable to Hitler and transformed many of Hitler's ideas into edicts, orders, and other commands which Bormann implemented. These include extension of the Nuremberg Laws to conquered Slav regions in the East, decrees ordering the Final Solution and Adolf Eichmann's authority thereof, and the order to create the Volkssturm, (People's militia) in the last months of the war comprised of mostly old men and other physically challenged individuals tasked to halt the Soviet advance.

The event listing in the rectification section is sufficient to fill out the major themes of Bormann's life history.

<u>Stage I. Determine the Ascendant sign</u>

For AA-rated birth times, the objective of Stage I rectification is confirm the Ascendant sign.

Physiognomy

Both 1934 and 1939 photos defy the AA-rated Aquarius Ascendant with a football-shaped head which matches the ovate shape assigned to Capricorn by John Willner. For similar horoscopes, see Truman Capote and Carl Jung, both with AA-rated Aquarius Ascendants rejected for similar reasons.

Conclusion: Ascendant is Capricorn.

Stage II. Determine the Ascendant's range within 1-4 degrees

Physiognomy

From the front profile view, the ovate shape is rounded out by a fullness which suggests influence of the roundness of Cancer. Which planet can account for the Cancer influence and what is the corresponding rising decan (e.g., Capricorn, Taurus, or Virgo)? Each respective ruler of these three signs are placed in the Cancer-Capricorn axis: Saturun/Capricorn-rx, Venus/Cancer-rx, and Mercury/Cancer. Which one rules the rising decan? As one consideration for judgement, a consistent finding from my research is the ability of retrograde planets to function as though they are placed in the opposite sign. Applying this observation to physiognomy for Martin Bormann leads to the following conclusions:

1. Saturn/Capricorn-rx functions like Saturn/Cancer. This would yield the roundness of Cancer, yet as Saturn is the enemy of Cancer, the effect of Saturn/Cancer in physiognomy is to lengthen the face which makes the face appear sad and forlorn. USA President Woodrow Wilson is a classic example of a Saturn/Cancer face. I conclude that Saturn/Capricorn-rx does not rule the rising decan because Bormann's face is more round than long; nevertheless, because Saturn/Capricorn-rx is placed in the Ascendant sign it does influence physical appearance. Most likely Saturn manifests through a very ugly scar on the right side of Bormann's face visible in the left photo. Note the scar was airbrushed out of the right photo.

2. Venus/Cancer-rx should function like Venus/Capricorn. If ruler of the rising decan, Venus would accentuate the ovate shape of Capricorn leaving no room for the roundness of Cancer. I reject Venus as ruler of the rising decan for this reason.

3. Mercury/Cancer is the only planet which is able to add the pure effect of Cancer's roundness to the face. Mercury/Cancer is the ruler of the 3rd decan of Capricorn (Virgo).

Conclusion: Ascendant degree range is narrowed to 20CP00 – 29CP59 (Virgo decan).

Sensitive Degrees

12-May-1941. tr. North Node 29VI11'15 trine ASC. Hitler reassigned Rudolf Hess' duties to Bormann after Hess fled to Britain. Bormann's new title was head of the Party Chancellery.

12-Apr-1943. c. tr. North Node 28PI24'44" sextile ASC. Hitler appointed Bormann Personal Secretary to the Fuhrer.

Both events were Bormann's two most significant advances within Nazi Party Leadership. They suggest and Ascendant degree range of 27-29 Capricorn. See also:

Solar Arc Directions

26-May-1926. *csa Mars square ASC*.
1-Jul-1926. *dsa ASC square Mars*.

In May 1926, Bormann left his job as an agricultural supervisor at But Herzberg, a position dating from 1920. This appears to open up a closer relationship to the NSDAP. By the end of this sequence, Bormann appeared in a storm trooper uniform with Hitler in a reviewing stand during the 2nd party rally of the NSDAP in Weimar, 4-Jul-1926.

28-Oct-1927. *csa ASC conj Saturn.*
7-Dec-1927. *dsa Saturn conj ASC.*

It was during these months (no exact date) that Bormann failed as a press officer for the Gau but discovered his life calling in administrative management, the backbone of organizational success.

24-Nov-1932. *csa Saturn conj MC*.
18-Jan-1933. *dsa MC conj Saturn*.

24-Nov-1932. Hindenberg refused Hitler's demand to play a role in the government.
30-Nov-1932. Hitler rejected further discussions with Hindenberg.
16-Jan-1933. Schleicher raised the issue of dissolving the Reichstag and postponement of new elections which would breach the constitution. The breach of the constitution is consistent with Saturn/Capricorn retrograde – which means a reversal, or interruption, of what would otherwise be a more straightforward application of laws within an existing legal framework.

Bormann's administrative career rose and fell with Hitler's own; these solar arcs paved the way for Bormann's subsequent promotion to Chief of Staff to Rudolf Hess on 1-Jul-1933.

In 1920 Bormann was employed as an apprentice on a country estate with agricultural interests. As the Weimar Republic's hyperinflation raged out of control in the early 1920s, the militia group known as the Freikorps helped protect agricultural crops from pillaging from starving urbanites scavenging for food. Within German history, Freikorps' roots can be traced to the 18th century. During the Napoleonic era, the Freikorps as a nationalist military organization was purposed to protect German interests from the French. In the years following World War I, the Freikorps were strident anti-Communists and maintained order by thuggery and violence in a volatile political environment. Many future Nazi leaders can be traced to Freikorps units of the early 1920s. Protecting farm interests from urban scavengers was not the primary mission of the Freikorps but was a job which matched their abilities. By whole sign houses, Mars is placed in the 5th house which signifies income from farms/land (2nd from the 4th). Mars/Taurus in the sign of detriment signifies pillage and theft of agricultural products which diminishes farm income.

Bormann joined a Freikorps unit in 1922 (no date) during his employment as a country estate manager. A year later, Bormann's involvement with the Freikorps tracked the group's broader political interests. The same anti-French agenda of the Freikorps in the Napoleonic era repeated in the years following World War I with German anger at the French occupation of the Ruhr mandated by the Treaty of Versailles. Freikorps member Albert Leo Schlageter was actively involved in sabotage in French-occupied Ruhr but was caught and executed by French authorities on 26-May-1923. Members of Bormann's Freikorps Unit determined that Walther Kadow tipped off the French to Schlageter's activities. As a result, Rudolf Hess (Bormann's future boss under Hitler's regime), Martin Bormann, and other Freikorps members drove Kadow to a meadow to teach him a lesson. Things got out of hand and Kadow was murdered. Bormann was the driver and did not directly participate in the killing. For his role, Bormann was arrested in early July 1923, released at the end of September 1923, tried in Leipzig 12-Mar-1924, sentenced to 1-year prison term on 17-Mar-1924, and released early during February 1925.

The initial arrest and release dates correspond to the 3rd and 4th Mars directions above.
The start of Bormann's prison sentence on 17-Mar-1924 corresponds to the first Saturn direction. While in prison his duties were to "paste all sorts of paper containers together (Lang, p. 36)." No other specific event matches are available for the other ASC-Saturn directions but they do match Bormann's time as agricultural supervisor (to May 1926) which involved estate administration.

Just as the ASC-Mars directions cited on the prior page linked Bormann to the Freikorps paramilitary units, these Sun-Mars directions linked Bormann to the Sturmabteilung (SA) led by Ernst Rohm, also known for its aggressive violence against the general population. After Hitler became Chancellor in 1933, the SA considered themselves a replacement for the Germany Army (Reichwehr). As an example of the SA's sense of entitlement, consider Rohm's 2-Oct-1933 letter to General Walther von Reichenau stating Rohm describing the Reichwehr as only a training school and that war should be exclusively undertaken by the SA in the future (event match to the 2nd direction above). By 1934 Hitler decided the SA leadership must be eliminated and ordered the 'Knight of Long Knives' purge on 30-Jun-1934 (event match to 4th direction above).

Bormann's boss Rudolf Hess was directly involved in the purge and can be read as Sun/Gemini in Bormann's horoscope. In addition during this time period Bormann solidified his position within Hitler's inner circle.

Presented here are all the permutations of Saturn conjunct Moon primary directions. As explained under the Saturn-MC solar arc directions, the best delineation of Saturn/Capricorn-rx for Bormann is the breach of constitutional law. Pushing the delineation further by my observation that rx-planets behave like they are in the opposing sign (e.g., Saturn/Capricorn-rx behaving like Saturn/Cancer) we can add 'through harsh measures of control' to 'break of constitutional law' all carried out with Bormann's administrative skill. With Saturn/Capricorn-rx Bormann's victor, these directions are very telling as to Bormann's overall life purpose and significance as his eventual powerful position as the #2 Nazi behind Adolf Hitler. Selected event matches:

(1) 20-Jul-1932. Papen deposed the Prussian government and took the position "Reich Commisar for Prussia." Considered a model for usurpation of state political power taken by Hitler 6 months later.

(5) 12-May-1941. Hitler named Bormann Head of Party Chancellery after Hess' departure to Britain.

(7) 12-Apr-1943. Hitler named Bormann his personal secretary.

(8) 18-Oct-1944. Bormann ordered formation of Volkssturm (People's militia) with Himmler, comprised primarily of old men and those with limited physical abilities. Nearly 175,000 of the Volkssturm were killed with no impact on the Soviet advance.

(11) 4-Dec-1941. Signed "Edict on Criminal Law Practices against Poles and Jews in the Incorporated Eastern Territories." Permitted corporal punishment and death for the most trivial of offenses.

(12) 9-Oct-1942. Signed decree prescribing Final Solution of extermination of the Jews.

(13) 1-Jul-1943. Gave Adolf Eichmann absolute power over Jews who now came under jurisdiction of the Gestapo.

Model Summary

(for model details see www.regulus-astrology.com/research.html)

Physiognomy

Ascendant sign: Capricorn
Ascendant sign ruler: Saturn/Capricorn-rx
Ascendant decan: Virgo
Ascendant decan ruler: Mercury/Cancer
Planets/Nodes placed in the Ascendant sign or decan: Saturn/Capricorn-rx

Longevity: 44y 10m 15d

Releaser and kadukhudhāh. Figure is nocturnal and Moon/2nd/masculine sign is an acceptable candidate for releaser. From this point forward the exercise is messy. The planet with the highest dignities in the place of the Moon is participating triplicity ruler Jupiter/Sagittarius-rx placed in the 10th by quadrant houses but the 12th by whole sign houses. Jupiter grants 79 major years which are amplified 25% to 98.75yrs because Jupiter is conjunct the North Node. Malefics cannot deduct because they do not aspect. Clearly this solution according to theory is wrong. What is more plausible is to take Saturn/Capricorn as the Moon's sign, bound, and daily triplicity ruler despite the fact Saturn and the Moon are inconjunct. Or we could choose Saturn as kadukhudhah because he is the victor. Saturn grants 57 years; Mars deducts 15 minor years by trine aspect with reception (exaltation). Net projection is 42yrs which is 17-Jun-1942. Bormann lived slightly longer but note this action takes Bormann within 4 months of 9-Oct-1942 when he signed the decree prescribing the Final Solution. Always step back from these computations to ask how the planets play out in life affairs. Saturn/Capricorn-rx is life-giving for Bormann because it grants him administrative authority to subvert constitutional law through harsh legal edicts. Mars/Taurus works against Bormann because Mars/Taurus signifies pillage and destruction of agricultural foodstuffs. The inability of the Nazi military to resupply Berlin and Hitler's bunker with provisions in the last days of the war was the last straw of the Nazi regime and the actual reason why Bormann fled Hitler's bunker and took cyanide during his flight for fear of falling into enemy hands.

Note: The chart cast for death (2-May-1945, Berlin, 2:00 a.m. ~estimated between 1:30 and 2:30 am) is worthy of study. The Moon applies to Saturn with Saturn/Cancer/detriment in the 6th (imprisonment) amplified by North Node 12CA23 which is partile the Lot of Death 12CA52. trMoon 2CP15 is partile conjunct natal Saturn 2CP10. For students of house systems, note the North Node's transit to the Lot of death is another example which favors intermediate house cusps computed by Alchabitius semi-arc method (see discussion in *A Rectification Manual*, pp. 33-34).

Victor of the Chart: Saturn/Capricorn-rx
Ibn Ezra's method favors Saturn/Capricorn; Porphyry's Stage I adds Jupiter as a candidate. As described in the rectification section, delineation of Saturn/Capricorn-rx as the usurpation of constitutional law by harsh legal edicts designed to control the population; and the administration thereof, was Bormann's life purpose. No question that Saturn/Capricorn-rx is Bormann's victor.

Manners: Saturn or Saturn-Mars
