

Included in this folder are rectification details for horoscopes cited in American is Born: Introducing the Regulus USA National Horoscope, Appendix C.

The 2<sup>nd</sup> edition makes three replacements:

Distributor	1 <sup>st</sup> edition	2 <sup>nd</sup> edition
Jupiter/Aries	George Nicholas Sanders	Lorenzo Fowler
Venus/Cancer	Calvin Coolidge	Mae West
Saturn/Cancer	Gregory Peck	Joseph McCarthy

As before there is no example horoscope for the Mercury/Pisces distribution.

The 2<sup>nd</sup> edition adds Initial Public Offering horoscopes for NYSE listed equity for Google (Jupiter/Virgo) and Peloton (Mars/Virgo). No rectification details are provided as the default for IPO horoscopes is 9:30 AM, New York, NY for the IPO launch.

Since publication of the 1<sup>st</sup> edition, I have incorporated the Hellenistic Zodiacal Releasing from Spirit methodology into my toolkit. While nearly every rectification for USA presidents has stood up to ZRS scrutiny, the same cannot be said for many horoscopes presented in Appendix C. ZRS has added quite a bit clarity especially for those individuals with limited published biographical details.

Behind each of these rectifications is a separate Excel spreadsheet with dozens, sometimes hundreds, of events and notes about the individual. Because much of this material is notated from biographies there are copyright issues involved in posting this material online.

Any reader wishing to peruse the Excel spreadsheets which include complete chronologies are welcome to contact me and request at most 3 spreadsheets to review. In the future I may choose to post versions of the chronologies which are sanitized of copyrighted material. That's an immense task which is not on the immediate agenda.
