

Medieval Astrology Profile for Mae West

V.1. 7-Feb-2011. 11:16:27 PM, ASC 8GE57'43"

Introduction to delineation of appearance and character in natal astrology. The following document is a hand-written analysis of **Mae West**, using the principles of medieval predictive astrology. The discipline of natal astrology focuses on the fate of an individual based on a horoscope cast for the moment of birth. Within natal astrology, the 1st house occupying the eastern horizon at birth describes the native: physical vitality, appearance, and character. Between the Hellenistic and Medieval eras several specialized models were developed to assess these characteristics. They include **longevity** (vitality and length of life), **physiognomy** (form and shape of the face and body), **victor of the chart** (overall life purpose), **manners** (social conduct including ethical behavior), and **temperament** (elemental mix of fire, earth, air, and water with applications in medical astrology). Prior research has presented models and results for longevity (*A Rectification Manual: The American Presidency*, Chapter 4) and physiognomy (*Astrological Physiognomy: History and Sources & Astrological Physiognomy: Empirical Tests of the Leo Rising Decan*).

Victor of the Chart. Included are two competing models for computing the victor of the chart said to be the single most powerful planet in the horoscope. According to Plato's follower Porphyry, by configuration in the natal horoscope the planet signifying the victor of the chart shows the life choice made by the soul prior to incarnation. Plato explains the details of his soul model in *The Myth of Er* found in the closing pages of his work *The Republic*. Porphyry and his peer Antiochus offer specific rules for determining the victor of the chart. The method of Antiochus/Porphyry is compared to a later method for determining the victor suggested by the Jewish Rabbi Abraham ben Meir ibn Ezra, a philosopher and astrologer active in the 12th century. For a discussion of these two models, see the companion paper *Victor of the Chart: Testing Methods of Antiochus/Porphyry and Ibn Ezra*, which serves as a key to what is presented here.

Manners. Plato was not alone among Greek philosophers in conceiving models for the soul. Aristotle's model of vegetative, sensitive, and intellective soul levels (assigned respectively to the plant, animal, and human kingdoms) was taken up by Ptolemy, who found a correspondence between the sensitive and intellective soul and Moon and Mercury in the natal horoscope. Configuration of the Moon and Mercury, with special emphasis given to their rulers, is a second method for analyzing the soul. Ptolemy introduces this model in *Tetrabiblos III.13* "Of the Quality of the Soul." Subsequent authors refer to this model as "Significators of the Soul" or "Manners." A summary template for the Moon and Mercury is presented in the paper and will be further developed in future versions.

Mae West

Mae West (August 17, 1892 – November 22, 1980)

Mae West was an American actress, singer, playwright, screenwriter, comedian, and sex symbol whose entertainment career spanned seven decades. She was known for her lighthearted, bawdy double entendres and breezy sexual independence, and often used a husky contralto voice. She was active in vaudeville and on stage in New York City before moving to Los Angeles to pursue a career in the film industry.

West was one of the most controversial movie stars of her day; she encountered many problems, especially censorship. She once quipped, "I believe in censorship. I made a fortune out of it." She bucked the system by making comedy out of conventional mores, and the Depression-era audience admired her for it. When her film career ended, she wrote books and plays, and continued to perform in Las Vegas and the United Kingdom, on radio and television, and recorded rock 'n roll albums. In 1999, the American Film Institute posthumously voted West the 15th greatest female screen legend of classic American cinema.

Rectification

Available Birth Data

Astrodatbank lists an A-rated from memory birth time of 10:30 PM with an Ascendant of 28TA. The proposed rectification is 46 minutes later which shifts the Ascendant sign to Gemini and the Lot of Fortune from Cancer to Leo.

Stage I. Determine the Ascendant sign

Physiognomy

The ADB time of 10:30 PM yields an Ascendant with 28TA. While sign ruler Venus/Cancer is consistent with Mae West's body type, it is not the only possible delineation match. In fact, Saturn/Virgo rules the third decan of Taurus – and her facial features are anything but Virgo. The first decan of Gemini, on the other hand, is ruled by Mercury/Virgo-rx which functions like Mercury/Pisces. Pisces is an acceptable facial type for West. The Moon's placement in Cancer, no matter what the rising sign, will add the Cancer element to her physiognomy anyway.

ZRS and Configuration of the Chart

More persuasive evidence for advancing the Ascendant to Gemini is ZRS which if the Ascendant is 7GE27 or later places the Lot of Fortune in Leo. This makes Taurus 10th from the Lot of Fortune and moves Taurus to the 12th house. A Venus-ruled 12th house signifies notoriety from sexual affairs and sex generally which is a much better delineation match to Mae West's life story. On ZRS, this makes L1GE-L2TA (LOF10) from 22-Dec-1931 to 17-Aug-1932 time her Paramount contract with the next immediate L2SA (loosing of the Bond) timing her first film premiere. Under L1CA, the L2CP (loosing of the bond) timed the death of her manager and the start of her nightclub act in the mid-1950s. Finally, the last L1LE-L2AQ (loosing of the bond) in 1976/1978 timed the film Sextette which her friends begged her not do and essentially finished her career with a film bomb.

Sensitive Degrees

I most often present sensitive degrees as a Stage II technique to narrow the Ascendant degree range once an Ascendant sign has been established. For West, I present the following measurements which favor the first decan of Gemini rising, consistent with the ZRS analysis above.

The year 1927 was a bad one for Mae West with her arrest and imprisonment on indecency charges early in the year and a shortened run of *The Wicked Age*. In all of these incidences, trSat was very close to the rectified DSC of 8SA57 and was joined by trMars/Gemini in the Ascendant during the peak of her legal problems in early 1927.

2-Feb-1927. Arrested during police raids of *Sex*, *The Captive*, and *the Virgin Man*. trSat 6SA09.

5-Mar-1927. Pled not guilty during indecency trial. trMars 6GE23, trSat 7SA32.

19-Apr-1927. Sentenced to 10 days imprisonment. trSat 6SA47-Rx.

14-Nov-1927. Production of *Wicked Age* is cancelled with MW illness. trSat 8SA02.

Another close transit to the proposed rectification is her 1942 divorce.

23-Jul-1942. Obtained divorce. trSat 9GE12 conj ASC.

Stage II. Determine the Ascendant's range within 1-4 degrees

Lots

I am not happy with measurements to lots for this proposed rectification and therefore rate it a trial proposal.

KEY – Mubtazz Scoring

Single point: assigns 1 point for each essential dignity

Early medieval: sign 5, exaltation 4, bound 3, primary triplicity lord 2, decan 1. Used by al-Kindī and Māshā'allāh.

Late medieval: sign 4, exaltation 4, triplicity lords (all) 3, bound 2, decan 1. Used by Schoener; taught by Zoller.

Fixed Stars from Janus 4.3 software. Criteria: conjunction within 2 degrees longitude.

Additional

Moon's Configuration: Moon applies to Mercury, nocturnal, preventional.

Moon-Mercury whole sign aspect? Yes. Moon and Mercury are in sextile aspect.

Do scoring methods agree? Mars-Mercury (sign-based) or Venus-Mercury (bound-based).

Physiognomy

Ascendant sign: Gemini

Ascendant sign ruler: Mercury/Virgo-rx

Ascendant decan: Gemini

Ascendant decan ruler: Mercury/Virgo-rx

Planets/Nodes placed in the Ascendant sign or decan: n.a.

Longevity: 88y 3m 5d

Releaser and kadukhudhāh. Note with the Moon/Cancer and Sun/Leo, both luminaries are in signs they rule which is one indication of a long-lived individual.

Figure is nocturnal and Moon/Cancer/2nd qualifies as the releaser though its bound lord Mars is inconjunct. If the releaser is the Moon, then the Moon in her own sign grants 108 major years with no deductions from malefics.

Consider the Sun/Leo, also in the sign he rules, which now aspects its bound lord by opposition aspect. Sun grants 120 major years with Mars deducting 15 minor years for a net projection of 105 yrs, very similar to the Moon's projection.

Neither is accurate, she does live a longer than average lifespan with credit given to both the Moon and Sun in signs they both rule.

Victor of the Chart: Mercury/Virgo-rx

Porphry's Stage 1 criteria favor Mars and Jupiter by bound, but when total scores are considered (with dwad position) Mercury ties with Jupiter as a high scoring Stage 1 candidate. On first glance, Mercury/Virgo-rx seems an unlikely match for an actress specializing in sexualized roles (e.g., why not Venus/Cancer?). However, as she grew into her career, Mae West wrote her own scripts and developed her own shows. She was a humorist, consistent with Mercury/Virgo-rx acting like Mercury/Pisces in the opposite sign which is one signature for a humorist. Firdaria confirms this choice with the Broadway version of her signature role as Diamond Lil [Mars-Mercury], the film version of Diamond Lil and three of other other best known films [North Node/Taurus placed in the bound of Mercury/Taurus], and her most famous later film with W. C. Fields, My Little Chickadee [Sun-Mercury].

Manners: Mars-Mercury (sign-based) or Venus-Mercury (bound-based).
