Introduction to delineation of appearance and character in natal astrology. The following document is a hand-written analysis of **Bill Gates**, using the principles of medieval predictive astrology. The discipline of natal astrology focuses on the fate of an individual based on a horoscope cast for the moment of birth. Within natal astrology, the 1st house occupying the eastern horizon at birth describes the native: physical vitality, appearance, and character. Between the Hellenistic and Medieval eras several specialized models were developed to assess these characteristics. They include **longevity** (vitality and length of life), **physiognomy** (form and shape of the face and body), **victor of the chart** (overall life purpose), **manners** (social conduct including ethical behavior), and **temperament** (elemental mix of fire, earth, air, and water with applications in medical astrology). Prior research has presented models and results for longevity (*A Rectification Manual: The American Presidency*, Chapter 4) and physiognomy (*Astrological Physiognomy: History and Sources & Astrological Physiognomy: Empirical Tests of the Leo Rising Decan*).

Victor of the Chart. Included are two competing models for computing the victor of the chart said to be the single most powerful planet in the horoscope. According to Plato's follower Porphyry, by configuration in the natal horoscope the planet signifying the victor of the chart shows the life choice made by the soul prior to incarnation. Plato explains the details of his soul model in *The Myth of Er* found in the closing pages of his work *The Republic*. Porphyry and his peer Antiochus offer specific rules for determining the victor of the chart. The method of Antiochus/Porphyry is compared to a later method for determining the victor suggested by the Jewish Rabbi Abraham ben Meir ibn Ezra, a philosopher and astrologer active in the 12th century. For a discussion of these two models, see the companion paper *Victor of the Chart: Testing Methods of Antiochus/Porphyry and Ibn Ezra*, which serves as a key to what is presented here.

Manners. Plato was not alone among Greek philosophers in conceiving models for the soul. Aristotle's model of vegetative, sensitive, and intellective soul levels (assigned respectively to the plant, animal, and human kingdoms) was taken up by Ptolemy, who found a correspondence between the sensitive and intellective soul and Moon and Mercury in the natal horoscope. Configuration of the Moon and Mercury, with special emphasis given to their rulers, is a second method for analyzing the soul. Ptolemy introduces this model in *Tetrabiblos III.13* "Of the Quality of the Soul." Subsequent authors refer to this model as "Significators of the Soul" or "Manners." A summary template for the Moon and Mercury is presented in the paper and will be further developed in future versions.

Bill Gates

Bill Gates (October 28, 1955 - living)

William Henry Gates III is an American business magnate, software developer, investor, and philanthropist. He is best known as the co-founder of Microsoft Corporation. During his career at Microsoft, Gates held the positions of chairman, chief executive officer (CEO), president and chief software architect, while also being the largest individual shareholder until May 2014. He is one of the best-known entrepreneurs and pioneers of the microcomputer revolution of the 1970s and 1980s.

Born and raised in Seattle, Washington, Gates co-founded Microsoft with childhood friend Paul Allen in 1975, in Albuquerque, New Mexico; it went on to become the world's largest personal computer software company. Gates led the company as chairman and CEO until stepping down as CEO in January 2000, but he remained chairman and became chief software architect. During the late 1990s, Gates had been criticized for his business tactics, which have been considered anti-competitive. This opinion has been upheld by numerous court rulings. In June 2006, Gates announced that he would be transitioning to a part-time role at Microsoft and full-time work at the Bill & Melinda Gates Foundation, the private charitable foundation that he and his wife, Melinda Gates, established in 2000. He gradually transferred his duties to Ray Ozzie and Craig Mundie. He stepped down as chairman of Microsoft in February 2014 and assumed a new post as technology adviser to support the newly appointed CEO Satya Nadella.

Since 1987, he has been included in the *Forbes* list of the world's wealthiest people. From 1995 to 2017, he held the *Forbes* title of the richest person in the world all but four of those years. In October 2017, he was surpassed by Amazon founder and CEO Jeff Bezos, who had an estimated net worth of US\$90.6 billion compared to Gates' net worth of US\$89.9 billion at the time. As of July 2020, Gates had an estimated net worth of US\$111.8 billion, making him the second-wealthiest person in the world, behind Bezos.

Later in his career and since leaving day-to-day operations at Microsoft in 2008, Gates has pursued a number of philanthropic endeavors. He has given sizable amounts of money to various charitable organizations and scientific research programs through the Bill & Melinda Gates Foundation, reported to be the world's largest private charity. In 2009, Gates and Warren Buffett founded The Giving Pledge, whereby they and other billionaires pledge to give at least half of their wealth to philanthropy. The foundation works to improve global health, and is working with Rotary International to eliminate polio.

Rectification

Available Birth Data

Astrodatbank reports an A-rated birth time of 10:00 PM with an Ascendant of 26CA58. The proposed rectification is 13 minutes later with the Ascendant in the last degree of Cancer.

Stage I. Determine the Ascendant sign

ZRS. For an A-rated birthtime, the objective of Stage 1 rectification is to confirm the Ascendant sign. In addition to the Ascendant in Cancer, the Lot of Fortune is in Aquarius, and the Lot of Spirit is in the first few minutes of Capricorn for the stated 10:00 PM birth time. Perhaps for Gates, the better question is whether the L.Spirit is in Capricorn or in the earlier sign of Sagittarius.

ZRS analysis confirms L.Spirit in Capricorn with the following notable matches to life affairs:

1. L1-CP, L2-CA (loosing of the bond). Learned of Altair 8800 computer via Popular Electronics.
2. L1-AQ, Angular form L.Fortune, itself in AQ, timed his key life accomplishments in Microsoft.
3. L1-AQ, L2-LE, foreshadowing period, timed first Justice Dept antitrust investigation.
3. L1-AQ, L2-LE, loosing of the bond, timed Justice department ordered breakup which was reversed as soon as L2 changed to Virgo.

The conclusion of this analysis is the earliest birthtime for L.Spirit in Capricorn is 9:59:08 PM. Compared to a reported time of 10:00 PM, if there is any adjustment to be made it is probably later.

Physiognomy

Shape of face in early years is a reasonable match with the lean bony ovate of Aries, consistent with Cancer rising. The third decan of Cancer is Pisces ruled by Jupiter/Leo. Gates does not exhibit the square shape of Leo with a prominent jaw so this mismatch raises questions. Nevertheless, in my initial review of decans and physiognomy I found that Cancer rising had considerable violations to the general rule that the sign placement of the ruler of the rising decan gives the shape of the face. Also note that were the Ascendant sign to be pushed to Leo, Sun/Scorpio as ruler of the rising decan would give a very thick, square face with contrasting features between hair and skin color (such as bushy black eyebrows which dominate the appearance of the upper face). Lacking any suggestion of Scorpio on physiognomy (and having ruled out birth times before 9:59 PM based on ZRS), I suggest it is fairly safe to accept the Cancer rising sign as given.

Stage II. Determine the Ascendant's range within 1-4 degrees

Bound Placement of L.Fortune

Gates is an example of where a life dedicated to science and technology can be used to fine tune the Ascendant not by the Ascendant itself, but by the Lot of Fortune by examining its bound placement. For the 10:00 PM reported birth time, the L.Fortune is placed at 23AQ which is the bound of Mars/Aquarius. As a planet/sign combination, Mars/Aquarius is an anti-tech and anti-science placement. A better match for Gates' L.Fortune is the bound of Saturn/Aquarius (last five degrees of Aquarius). For this to occur, the birthtime must be 10:06:55 PM or later; implies an Ascendant of 28CA17 to 29CA59.

Sensitive Degrees

Consistent with the above comments is trSaturn 26AQ47 on 21-Aug-1993 which was the day the Justice Department took over the FTC's antitrust investigation, (e.g., conjunct the L.Fortune if LOF is in the bound of Saturn/Aquarius).

Victor of the Chart: Saturn/Scorpio

Porphry's Stage I criteria highlights Venus and Saturn as the two highest scoring victor candidates. Interestingly, though Jupiter by many measurements in the rectification section timed key company events, including the release of Windows' versions, Jupiter gets a 0 score for sign or bound for any of the possible places considered.

As Saturn's bound lord, let's first consider why Jupiter/Leo signifies the Windows operating system. Leo is a sign known for transparency, glory, power, and spreading its munificence across the human ecosystem. The name windows itself suggests transparency as one can see through a window; hence, the Windows operating system is designed to create a transparent portal through which one can pierce the veil of knowledge through better navigation and design. Jupiter rules the 9th house of religion, philosophy, and publishing. Jupiter/Leo as a planet/sign combination signifies moral authority in ways which views its own viewpoint of the world as the most correct. Gates view Windows as the 'right way' to open a technology portal on every computer in the world.

As Saturn's sign lord, let's next consider the influence of Mars/Libra on Saturn/Scorpio. The applying aspect of Moon/Aries to the opposition of Mars/Libra signifies headstrong reflexive action which is thwarted by a lack of preparation. This is consistent with Microsoft's history of the early release of products (to be 'first' and 'ahead' of competition) which are nonetheless riddled with computer bugs. This pattern has tainted Microsoft's brand by a large number of software designers as it leaves company software open to malicious hacking attacks which take advantage of software bugs.

The combined impact of Mars (poorly executed software open to attack) and Jupiter (the 'right way' to access the information/computer age) makes Gates gravitate towards internet security and national defense, both signified by Saturn/Scorpio. In addition, Saturn/Scorpio also appears the significator for vaccines which crush Venus/Scorpio-signified illnesses.

Manners: Mars-Venus (sign-based); Jupiter-Venus (bound-based).
